Computer Engineering   09/2020 – 06/2024
Kj's Trinity Academy Of Engineering
CGPA - 8.1

HSC   08/2018 – 05/2020
K.B.P. Bhuinj
Pecentage - 63.85

SSC   05/2018
New English School Humgaon
Percentage - 84.15

📁 PROJECTS

Car Rental Platform ⊡
React.js
Developed a responsive **car rental web app** enabling users to browse and book cars online with authentication, booking, and availability features.

My Portfolio ⊡
React.js
Built a modern portfolio website to showcase my **web development skills** and past projects.
Features **dynamic sections**, **projects gallery**, **contact form**, and **smooth navigation**.
Technologies used: **React.js**, **Tailwind CSS**, **React Router**, **Framer Motion** for animations.

Netflix Clone
Web Development
The project aimed to provide an immersive video streaming experience with user authentication, content browsing, and media playback capabilities., HTML, CSS, JavaScript.

Hotel Management
React Js Development
Designed and developed a fully functional hotel/restaurant management system to streamline daily operations. The system allows staff to manage table bookings, take customer orders, and handle billing.

Academy App
React Native Development
Developed a mobile application for educational academies where students can browse and purchase classes, view class schedules, and track attendance. The app includes a secure login/signup system, interactive class listings, and user-friendly UI for booking classes.

Book Buy & Sell App
React Native
Created frontend pages for a **book trading app** using **React Native**, enabling users to **buy and sell books** through an intuitive, mobile-friendly interface.

Automated System For Assisting Blind People
The development of a 'Automated System for Assisting Blind People' is a noble endeavor aimed at making a positive impact in the lives of visually impaired individuals., Python, OpenCV, TensorFlow, Raspberry Pi Face Detection.
